Fantastic customer service and results are two of the reasons a visit to Murphy Laser is at the top of the “To Do” list for so many people in the Ottawa region. Since 2003, this local business has been helping people look as good as they feel.

Dr. Patrick Murphy, a respected ear, nose and throat surgeon, and his partner, Diana Murphy, a certified laser specialist, provide a variety of services to enhance your appearance and your sense of well being. Non-invasive, affective and affordable, these self-improvement options are very attractive and increasingly popular.

Laser hair removal provides permanent results for all skin tones and there are equally effective procedures to treat unsightly veins. Microdermabrasion, a skin resurfacing treatment, creates softer, brighter looking skin, while Botox Cosmetic® helps reduce the effects of aging by relaxing the muscles to create a smoother appearance. Dermal fillers such as Restylane® add volume for a more natural, youthful appearance and Laser Genesis facial rejuvenation utilizes laser technology to help restore your youthful complexion.

Murphy Laser was one of the first clinics in Ottawa to offer Limelight (IPL), a light treatment that improves skin tone and surface imperfections.

Dr. Murphy treats underarm hyperhidrosis, more commonly known as excessive sweating, with Botox®. He also performs laser treatments for people who suffer from snoring.

Tattoo removal will be offered soon and added to the list of services.

Whatever you’re looking for, you’ll discover attentive, experienced professionals, advanced techniques, innovative solutions and the kind of uplifting self care you’ve been wishing for at Murphy Laser.

Diana Murphy puts people instantly at ease. Warm, friendly and personable, she truly enjoys getting to know people, educating them about the different options and seeing their smiles as they leave looking and feeling rejuvenated.

Service is very personalized and sincere, she says. “We provide an honest assessment and do what needs to be done for each individual patient.

“Pat and I work as a team.” she notes, adding patients are happy to know treatments are medically supervised by a doctor with extensive experience and expertise. “We respect each individual’s needs and we do what we do very well.”

Customer loyalty is just one of the inspiring results. What often happens, Diana says, is a person will come in to “test the waters.” Friends and co-workers will be so impressed by the transformation that they’ll decide they want and deserve to look better too. “More often than not, their family, friends and coworkers will come in to see what Murphy Laser can do for them.”
